

MEET the MEMBER!

Alyah Rafeh
Director of Operations

ActiveNation

COMPANY PROFILE:

We are a web development company. ActiveNation builds basic, e-commerce, and database driven websites and we specialize in the overall marketing functionality of a given website. We focus on branding and consistency with an organization's traditional marketing efforts. We offer hosting and website maintenance as well.

HOW ACTIVINATION CAN BENEFIT OTHER CHAMBER MEMBERS:

ActiveNation makes a special effort to understand our client's goals and objectives and work to build websites that will have a higher return on investment. We listen to what our client's want and offer individual approaches to each website we build. We also help clients to determine their actual needs. We focus on making sure our clients get the best possible website, and we're very customer-service oriented. What we're trying to say is that not only do we do a good job, we're also great to work with!

Our maintenance packages are ideal for those companies that want to keep their site current and fresh without having to incur the costs of full time web development staff. Also, we are currently running a promotion for hosting solutions for Chamber members. Contact us to learn more about this offer.

HOW THE CHAMBER BENEFITS ACTIVINATION AS A MEMBER:

The Chamber has been great for us. We've met some great people, some have become clients, others vendors and others friends. We are very active with most of the networking events and we especially like being part of such a community-oriented organization.

FAVORITE CHAMBER ACTIVITIES:

Henrico Business Council, Total Resource Campaign, Net @ Nite (formerly known as Business After Hours), and of course being a Chamber Ambassador.
